**Comment Suggestion**

Overall, I think this is a good supplement to the main lecture of CIS 120 because it gave me a chance to work on practice problems and get my questions answered more thoroughly than in lecture.

**Instructor Comment**

She was an amazing TA always willing to help.

Jane is a great teacher because she is extremely encouraging and it is clear that she has a passion for teaching this subject. Not only is she well-versed in the material and very open to answering all questions, but she also excels at giving advice about courses and extracurricular activities related to CIS. She is also very upbeat and positive during class, which makes the class more enjoyable.

Quick-witted and playful. Competent and professional.
